EXPLANATIONS OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed omitting all covenants and warranty.

C. a G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

The first date is the date the decd was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:482—10, denote that the property mentioned is in section 2, block 482, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A $20,000—$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1913.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The number in ( ) preceding the serial number to the right of the date line, at head of this page is the Index number for the Checking Index.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

CONVEYANCES.

Borough of Manhattan.

We print the names and addresses of the owner exactly as recorded, both are, however, verified and where name or address is found to be incorrect or fictitious the correction is printed in brackets immediately following the part of name or address of which it is a correction.

Conveyances marked with an * are being investigated and if found incorrect will be shown in a later issue.

EXPLANATIONS OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed omitting all covenants and warranty.

C. a G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:482—10, denote that the property mentioned is in section 2, block 482, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A $20,000—$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1913.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The number in ( ) preceding the serial number to the right of the date line, at head of this page is the Index number for the Checking Index.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

EXPLANATIONS OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed omitting all covenants and warranty.

C. a G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:482—10, denote that the property mentioned is in section 2, block 482, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A $20,000—$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1913.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The number in ( ) preceding the serial number to the right of the date line, at head of this page is the Index number for the Checking Index.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

KEY TO ABBREVIATIONS USED.

(A)—attorney.
A.L.—all liens.
AT—all title.
ano—another.

y—years.
O C & 100—other consideration and $100.

CONVEYANCES.

We print the names and addresses of the owner exactly as recorded, both are, however, verified and where name or address is found to be incorrect or fictitious the correction is printed in brackets immediately following the part of name or address of which it is a correction.

Conveyances marked with an * are being investigated and if found incorrect will be shown in a later issue.

EXPLANATIONS OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed omitting all covenants and warranty.

C. a G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 3:482—10, denote that the property mentioned is in section 2, block 482, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A $20,000—$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1913.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The number in ( ) preceding the aerial number to the right of the date line, at head of this page is the Index number for the Checking Index.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

KEY TO ABBREVIATIONS USED.

(A)—attorney.
A.L.—all liens.
AT—all title.
ano—another.
av—avenue.

CONVEYANCES.

We print the names and addresses of the owner exactly as recorded, both are, however, verified and where name or address is found to be incorrect or fictitious the correction is printed in brackets immediately following the part of name or address of which it is a correction.

Conveyances marked with an * are being investigated and if found incorrect will be shown in a later issue.

EXPLANATIONS OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed omitting all covenants and warranty.

C. a G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:482—10, denote that the property mentioned is in section 2, block 482, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A $20,000—$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1913.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The number in ( ) preceding the serial number to the right of the date line, at head of this page is the Index number for the Checking Index.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

EXPLANATIONS OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed omitting all covenants and warranty.

C. a G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:482—10, denote that the property mentioned is in section 2, block 482, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A $20,000—$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1913.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The number in ( ) preceding the serial number to the right of the date line, at head of this page is the Index number for the Checking Index.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

KEY TO ABBREVIATIONS USED.

EXPLANATIONS OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed emitting all covenants and warranty.

C. a G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:432—10, denote that the property mentioned is in section 2, block 432, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A $20,000—$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1914.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The number in ( ) preceding the serial number to the right of the date line, at head of this page is the Index number for the Checking Index.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

KEY TO ABBREVIATIONS USED.

(A)—attorney.
A.L.—all liens.

O C & 100—other consideration and $100.

CONVEYANCES.

Borough of Manhattan.

We print the names and addresses of the owner exactly as recorded, both are, however, verified and where name or address is found to be incorrect or fictitious the correction is printed in brackets immediately following the part of name or address of which it is a correction.

Conveyances marked with an * are being investigated and if found incorrect will be shown in a later issue.

EXPLANATIONS OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed omitting all covenants and warranty.

C. a G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:482—10, denote that the property mentioned is in section 2, block 482, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A $20,000—$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1914.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The number in ( ) preceding the serial number to the right of the date line, at head of this page is the Index number for the Checking Index.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

KEY TO ABBREVIATIONS USED.

(A)—attorney.
A.L.—all liens.
AT—all title.
ano—another.
av—avenue.
admr—administrator.
admtrx—administratrix.

EXPLANATIONS OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed omitting all covenants and warranty.

C. a G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus. 2:482—10, denote that the property mentioned is in section 2, block 482, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A $20,000—$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1914.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The number in ( ) preceding the serial number to the right of the date line, at head of this page is the Index number for the Checking Indox.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

KEY TO ABBREVIATIONS USED.

(A)—attorney.
A.L.—all liens.
AT—all title.
ano—another.

EXPLANATIONS OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed omitting all covenants and warranty.

C. a G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:482—10, denote that the property mentioned is in section 2, block 482, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A $20,000—$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1914.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The number in ( ) preceding the serial number to the right of the date line, at head of this page is the Index number for the Checking Index.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

KEY TO ABBREVIATIONS USED.

(A)—attorney.
A.L.—all liens.
AT—all title.
ano—another.

EXPLANATIONS OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed omitting all covenants and warranty.

C. a G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:482—10, denote that the property mentioned is in section 2, block 482, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A $20,000—$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1914.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The number in ( ) preceding the serial number to the right of the date line, at head of this page is the Index number for the Checking Index.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

EXPLANATIONS OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed omitting all covenants and warranty.

C. a G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:482—10, denote that the property mentioned is in section 2, block 482, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A $20,000—$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1914.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The number in ( ) preceding the serial number to the right of the date line, at head of this page is the Index number for the Checking Index.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.

KEY TO ABBREVIATIONS USED.

(A)—attorney.
A.L.—all liens.
AT—all title.
ano—another.

EXPLANATIONS OF TERMS USED AND RULES FOLLOWED IN COMPILING RECORDS.

Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed omitting all covenants and warranty.

C. a G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed consideration, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

The street and avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given. When the date of drawing is other than in the current year the stated year is given. When both the dates are in the same year the year follows the second date.

The figures in each conveyance, thus, 2:482—10, denote that the property mentioned is in section 2, block 482, lot 10.

It should also be noted in section and block numbers that the instrument as filed is strictly followed.

A $20,000—$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before second figure indicates that the property is assessed as in course of construction. Valuations are from the assessment roll of 1914.

T. S. preceding the consideration in a conveyance means that the deed or conveyance has been recorded under the Torrens System.

Flats and apartment houses are classified as tenements.

Residences as dwellings.

All Christian names, streets, avenues, states and months are abbreviated when possible, also in some instances names of Banks, Trusts and Insurance Companies.

The number in ( ) preceding the serial number to the right of the date line, at head of this page is the Index number for the Checking Index.

The Star following names of street or avenue in the Bronx Conveyances, Leases and Mortgages indicates that the property recorded is in the annexed district, for which there is no section or block number.
